A GREAT WORK.

Large Reservoirs to be Built. Colonel Bridges and His Very Interesting Talk—Nevada Will Be Redeemed and Her Population Doubled.

[From the S. F. Post]

The Senate Committee on Arid Lands is now here in the middle of August. People are naturally taking a great deal of interest in all irrigation topics, and the Arid Land Committee, appointed by the State Board of Trade, has held two or three important meetings lately.

Last April Colonel Lyman Bridges of this city was appointed a divisional engineer of the United States Geological Survey Department, of which Major Powell is the head. Colonel Bridges was at first offered Montana, but peremptorily refused. By the request of Senators Stewart and Jones he was given charge of the Labonton division, which consists of the great basin lying east of the crest of the Sierras in California and all the State of Nevada. This includes all the territory from Oregon and Idaho to the Gulf of California. Col. Bridges this morning gave a full account of his work to a representative of the Post, and some most interesting facts were ascertained.

COMPANIES AT WORK.

There are two thoroughly organized parties now in the field. The first is at the headwaters of the Carson river, and the second at the headwaters of the Truckee basin, in the high Sierras. These parties are locating reservoirs to store the flood waters and conduct them out onto the plateaus and plains of Eastern California and the State of Nevada. Natural lakes and reservoir sites for building dams have been selected. Among these are Donner and Independence lakes. The former will be increased to four times the latter to three times its present capacity. A reservoir will be made out of the dam of the Truckee river above Truckee City, and also out of Eagle lake. This will give a fine water power and store the water for such cities as Reno on the Truckee. By building a dam at the outlet of Lake Weber its capacity for the storage of water will be doubled.

THE LITTLE TRUCKEE.

Two reservoirs have been located on the little Truckee, below Lake Weber. From this water can be turned either into the Sierra valley and all the adjacent valleys near the line of California and Nevada. These reservoirs, together with the Donner lake reservoir, can also supply a large amount of water on the plateaus of Nevada. All the surplus water from the above named dams and lakes and the Truckee river sinks into Pyramid lake.

This far account has been taken of the waters of the Truckee. The Truckee river will then be turned above Wadsworth to the plains and plateaus southeast of Wadsworth.

This will prevent the waters of the Truckee from sinking into Pyramid lake. There is also a tunnel from Lake Tahoe to the head of the Carson valley, and a magnificent reservoir site has been established and located at the head of Hope valley canyon, on the west fork of the Carson river. This will have a surface of five miles of water fifty feet in depth. In this connection it may be stated that Donner lake will be raised twenty feet.

THE CARSON RIVER

On the middle fork of the Carson river at Pleasant valley a dam and reservoir have been located. The latter will have a surface of four square miles with an average depth of forty feet.

On the east or main fork of the Carson river, at Silver King canyon and valley, there is a reservoir site that will impound water in an area of about three square miles, forty to fifty feet in depth. At Wolf creek it empties into the east or main fork of the Carson near Silver King canyon.

Half a mile above the mouth of Wolf creek, at its junction with the east fork of the Carson river, another site has been selected covering two square miles. This will locate and preserve the surplus or flood waters of the upper Carson, to be brought down as required to the main or grand reservoir, which has been located in Long valley.

The dam to complete this grand natural land-locked reservoir is located one and one-half miles above Carson valley. It is capable of holding six square miles of water with an average depth of forty feet. The waters from the west fork of Hope valley reservoir will be conducted to this grand reservoir, in Long valley by a canal from Hope canyon, through Diamond and Dutch valleys. This is a distance of four miles.

THE HORSESHOE DAM.

The east fork of the Carson forms a junction in Alpine county California, making the east fork the main river below the point about twenty miles above Long valley. As there is a narrow gorge through solid rock half a mile below Horsehoe bend, a dam will be built through it to throw the main river back to Horsehoe bend. Here a narrow divide between the main river and Long valley not over one thousand feet in length will enable a tunnel through this divide to deliver such an amount of water as may be required to keep the reservoir in Long valley full to its maximum. This reservoir will have a head of 200 feet above the Carson valley, and will be located, as is easily seen, without being in any river bed. It will thus escape the drift and danger of accidents.

It is proposed now to build a canal from this grand Long valley reservoir along the high foothills of the eastern slope of Carson valley. Should this be accomplished it will reclaim some of the richest plateau lands, now only covered with sagebrush. One hundred thousand acres of the richest land in Carson valley will be reclaimed by this means. A short and direct route will also be opened for conducting a steady supply of water to the Carson river four

miles above the city. It will also give an ample supply of water for the Carson valley and for the mills below Carson City.

A DIVERTING DAM.

In addition to the above there will be a diverting dam built at the toll house, one mile above Hope canyon on the west fork. The object is to divert the water either into the Long valley canal or along the foothills at the foot of the mountain slopes on the west side of the valley. It will extend along the valley toward the north, passing Shoshone to Genoa. These waters will here join the Carson river.

GOOD FOR THE MILLS.

By storing the water in flood times, not only ranches but the mills at Empire, near Carson, will have more water than they can use. The present proposition is to carry the surplus into Churchill county, Nevada, where some of the finest lands under the sun are now languishing for water.

OTHER LOCATIONS.

There are several other excellent locations for reservoirs now being carefully studied. One of these is the Double Springs valley, located on the Carson and Bodie road, about four miles from Horsehoe bend, on the Carson river. This valley has an area of two or three square miles. The water from it can be conveyed either into the east fork, through Antelope, Smith or Mason valleys, as may be required.

MR. BRIDGES SPEAKS.

After discussing the whole of this broad question, Colonel Bridges said: "During the three months that we have been in the field the progress made has been something enormous. Nine-tenths of the water heretofore has got into sinks—such as the Carson and Pyramid. Our work is going to change all this and practically revolutionize Nevada. Of one thing I am certain, and that is that the population of Nevada will be doubled in an exceedingly short time."

What's the Matter With the Reno Club Getting In?

The Caledonians are thinking of offering a purse of \$100 to be contested for at their picnic by the Truckee and Comstock baseball clubs. This would make a very attractive feature of the picnic.

The Comstockers have sent below for new uniforms. It is a white flannel with a small blue stripe—perfect little mashers.

SUMMONS.

IN THE DISTRICT COURT OF THE STATE

of Nevada, in and for the county of Washoe,

GEO. H. CHAPMAN, Plaintiff,

vs.

REX H. CHAPMAN, Defendant.

The said Rex H. Chapman is hereby summoned to appear in an action commenced against you as Defendant by

the said Geo. H. Chapman in and for the District Court of the State of Nevada, in and for the county of

Washoe, and answer the complaint therein filed within

ten days after the service on you of this summons, exclusive of the day of service; if served in this county, or twenty days if served out of said county, but within said District, and in all other cases forty days; or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to recover judgment and decree of Court annulling the marriage heretofore and now existing between you and said plaintiff, on the ground of criminal cohabitation on your part and said plaintiff, and also on the further ground of extreme cruelty on your part towards said plaintiff, and for the custody and control of the minor children of yourself and said plaintiff, all of which will more fully appear from the complaint which is on file in the office of the Clerk of said Court here, in said county, and to which you are especially referred.

And you are further notified, that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded in the complaint.

In testimony whereof, I, T. V. JULLIEN,

Clerk, have hereunto set my hand and

affixed the seal of said Court, this 20th

day of July, A. D. 1889.

T. V. JULLIEN,

Clerk of the District Court of the State of Nevada,

in and for Washoe county.

By W. A. KROX, Deputy.

TOWN AND COUNTY.

BREVITIES.

C. W. Borton is in San Francisco.

Mrs. Gordon Rice is dangerously ill.

W. J. Burns, of San Francisco, was in town yesterday.

The Postoffice fight seems to be coming to the front again.

The Verdi Mill Co., are in need of a good glazier. See 50-cent ad.

The incoherent pens for which Nasby is agent, are getting to be very popular.

The young baseball nine of Reno will meet the Essex Club at Essex next Sunday.

Mrs. Clara Belle McDonald, who has been visiting in Carson, has returned to San Francisco.

Nasby has been appointed sole agent for Washoe county for M. Jacobs' London in candescent pens.

The steamers Niagara and Mamie, plying on Lake Tahoe, have been condemned as passenger carriers.

Judge Bigelow and R. L. Fulton will leave this morning on a trip to the lakes, to be gone until Sunday.

Berry & Novacovich received another carload of watermelons from Lodi yesterday. They were beauties, too.

No word has been received here regarding Tom Keating's horse sensation. He was to have trotted in Detroit Tuesday.

J. P. Foulks authorizes the JOURNAL to state that all the Chinese employed by the Verdi Mill Co., were discharged yesterday.

Go where you may within a radius of one hundred miles of Reno, you can find no larger so well liked as Geo. Becker's Pacific Beer.

The Carson Tribune says it is reported that Geo. W. Cassidy has been tendered the superintendency of the Eureka Con. Mining Company.

In the District Court yesterday, the last will and testament of the late James Corr was admitted to probate and James Mayberry was appointed executor.

Johnny Murphy, one of the best-known jockeys, died Monday morning at Parkville, N. Y., aged 45. He drove Maud S. when she made the best time recorded.

G. E. Holeworth will commence at once on the second story addition to the Wine House. George has his hands full at present, but is capable of doing first-class work.

The entire Chinatown district in Sacramento consisting of forty wooden buildings, mainly rookeries, was burned at 4 o'clock yesterday morning. Loss \$10,000, no insurance.

Fifteen sailors, survivors from the hurricane-wrecked United States war ships Nipic, Treston and the schooner Independence, at Samoa, were east-bound passengers yesterday morning.

The Winnemucca Silver State says there was a slight sprinkle of rain there Tuesday morning. About a dozen drops to the square foot fell and it would be gross exaggeration to call it a shower.

The following new postoffices have been established in Nevada: Amos, Humboldt county, with John C. Matthews as Postmaster; Mineral Hill, Eureka county, Hattie L. Mardock, Postmistress.

Lep Stearns, Deputy United States Marshal, and United States District Attorney Whitaker went to the Pyramid Lake Reservation yesterday morning to arrest certain parties for selling Indians liquor.

Dr. C. J. Mullen, late of Los Angeles, has located in Reno and will practice medicine and surgery. The Dr. has the best of recommendations as a physician and surgeon. He can be found at his office next door to the JOURNAL office from 9 to 11 A. M., and from 2 to 5 P. M.

The San Francisco Report said of "Old Jed Proddy": "People enjoy the performance, applaud the performers, indulge in a good old-fashioned laugh or good old-fashioned cry, or in the still greater luxury of both, and as the curtain falls on the final act, depart from the house in an enviable frame of mind."

Burned Because Chinese Cooks Were Employed.

A Truckee dispatch of the 21st gives the following reasons for the burning of O. Lonkey's mill:

The sawmill of Oliver Lonkey, at Prosser Creek, about five miles from Truckee was burned last night. It is thought to have been the work of incendiaries, as the mill was run by water power, and there was no fire within the immediate vicinity of the mill by which it could have caught.

It is said that Mr. Lonkey has received letters within the past month with matches inclosed, as a warning that if he did not discharge his Chinese cooks his mill would be burned. A couple of white men applied for the position of cooks at the same wages that the Chinese receive, and Mr. Lonkey refused to employ them. Mr. Lonkey lost his large factory at Verdi last year, and it was rumored that it was caused by incendiaries, on account of his employing Chinese.

Water Rights.

Ditch owners and others claiming the right to the use of the waters of the Truckee river, should carefully read the notice of the County Clerk, which will be found in another column, of an action commenced by G. W. Mappes and others to determine the priorities of rights of all water consumers. It will be seen by this notice that all parties claiming right to the use of the Truckee or any of its tributaries in Washoe county are required to appear in the action on or before September 23, 1889, or they may "get left," and while up some fine day to find that they have no rights whatever. All should get in and prove their claims while the opportunity is offered.

A PHOTOGRAPHER'S TRIALS.

Extravagant Demands on His Skill, Patience and Good Nature.

A photographer meets with many strange characters and is a witness of many curious incidents. In a recent informal talk before the Society of Amateur Photographers, Abraham Bogardus, the veteran photographer, told a number of amusing stories of incidents that happened to him in the course of his forty-one years' experience in the studio and dark room. He prefaced his talk with a few sarcastic remarks regarding young men who write long screeds in photographic papers on how to take photographs, whom the experiences of a single day "under the skylight" would cause them to wish they had never been born. He then went on to speak of the unreasonable demands which many sitters make.

"At one time," he said, "a lady brought three children, two boys and a girl, to me, to have their pictures taken. They came all prepared, with a doll for the girl and a gun and a bobby horse for the boys. Well, there was a row at the start. Both boys wanted to mount the horse. We got that settled after a time, but only to strike a new trouble. Of course you all know that the nearer together you group the objects to be photographed the better picture you will get. Well, this woman was a genius in her way; she did not want her children grouped close together as other people's were, but she wanted the little girl taken in the middle of the room and the boys off in opposite corners. Of course I told her it could not be done, whereupon she said: 'Well, Mr. Bogardus, I have always been told that you were very accommodating. I have been to three or four photographers and they all told me the same thing. I don't see as you are any more accommodating than the rest of them.' As another time a man, an Irishman, of course, wanted a carte-de-visite, and he wanted it 'life size.' Some people, by the way, never seem to understand the difference between 'full length' and 'life size.' I told him that the plate wouldn't hold it. 'Then take it with the legs hanging down,' were his instructions. Gen. Logan, who used to sit for me, did not often joke, but he did occasionally. He came in one day and saw hanging on the wall a picture of a man whom he greatly disliked. He turned to me and said: 'I see you take pictures of everybody.' 'Yes,' was my answer; 'that is what I am here for.' 'I suppose you would take a picture of the devil if you could get him to sit for you.' 'Of course, I suppose I could run off a good many of them in Washington.' 'Yes,' he replied; 'that's the best place in the world to sell them.'

"An old lady once came to me who wanted a picture, 'full face, but a little three cornered.' I once asked Dr. Tyng if he would not prefer a side view, and he replied: 'No, sir. I am an upright man. I don't turn to the right or left for any man.' But amid all the fun we also see some very sad things. I remember once a woman came in with a bundle in her arms which when unrolled proved to be the dead body of her little baby, which she wanted photographed. I remember once one of our venerable judges came in with his wife. I took both their pictures. He was perfectly satisfied with his, but she did not seem exactly pleased with hers, said it was too old. The judge turned to her and remarked: 'Well, mother, if you wanted a handsome picture you should have begun thirty years ago.' That settled it; she had nothing more to say. A lady came to me once to make an appointment for a friend who, she said, was very difficult to suit. She had tried dozens of photographers and had never been suited. Of course I promised to do the best I could for her. At the appointed time the lady came. She was old, and weighed at least 200 pounds. Her skin looked like a boiled lobster, and she was clad in low neck and short sleeves. I did not wonder she was never suited. Well, I did my best, but when the picture was made she agreed with me perfectly that it did look horrid. She did not order any of them."—New York Tribune.

Looking for Her Pocket.

"I see you have been poking fun at women's pockets," said a lady friend to the Stroller. "I am glad of it. Why, it has got so now that a woman has to get out a search warrant to find the pocket in a dress when it comes home from the dressmaker. We had a funny case in point in our women's missionary meeting at the church. The leader of the meeting had just finished reading a most affecting appeal from our lady missionary in California, and there was a solemn pause of expectant attention till some sister should feel moved to speak. Presently a white haired old lady—a mother in Israel—rose slowly and feebly to her feet. All eyes were turned upon her, and we waited to see whether she wished to make a few remarks or lead in prayer. One hand, incased in its wrinkled black kid glove, went fumbling and groping among the folds of her skirt. After a long pause she drew out a clean handkerchief still in its folds, and then with an air of relief, slowly sat down again. She had only risen to find her pocket."—Chicago Journal.

Willing to Oblige the Jury.

An amusing line was spoken in Judge Garrison's court, in Camden, the other day.

A gawky Jerseyman was on the witness stand, and, instead of speaking so that the jury could hear him, he persisted in mumbiling his answers to his counsel. Finally the judge said:

"Will you kindly speak so that these gentlemen can hear you?" pointing to the jury.

The up countryman turned around and found the twelve men all in an attitude of strained attention. His face thereupon lighted up with a half grateful and half flattered expression, and he replied: "Why, certainly. Are they interested in my case?"

And from this point on he made a better witness, feeling, as he did, that he had an audience that wanted to listen to him.—Philadelphia Press.

WHAT ON EARTH.

Is the reason people will not, can not or do not see any difference in cheap nostrums put up by cheap John houses or irresponsible parties at enormous profits rather than take a medicine of world wide reputation and one that is giving universal satisfaction at "all prices? No man in the world is given such unparalleled satisfaction for purifying the blood as BLOOD PURIFIER AND BLOOD MAKER, and every bottle that does not do so is not worth the name.

OSBURN & SHORRER, R. Druggists.

A Widow's Strategy.

A man of considerable wealth, who died in this city some time since, made a distribution of his personal estate which did not suit his disconsolate widow. Among other unsatisfactory things, he bequeathed the proceeds of certain land and stocks of value to a brother, while he left to the widow the proceeds of other stocks and lands comparatively valueless, as a portion of her legacy. But the widow was sole executrix of the will, and when she came to sell she disposed of the land and stocks in a lump, setting a high valuation on those of which she was to have the proceeds and a low valuation on the others, the valuation of the two lots taken together making a fair price for the whole. By this means she exactly reversed that portion of her husband's will relating to the land and stocks in question.

The brother, not relishing such sharp practice on the part of his sister-in-law, brought a suit to recover the actual value of the bequest made to him, whereupon the widow proposed that instead of spending the estate in law they should marry each other and enjoy it together. This proposition "struck a responsive chord" in the breast of the brother. They were married accordingly, and are said to be having a jolly time in spending the fortune which the deceased gentleman was so kind as to accumulate for them.—New York Ledger.

"Tom-Tum's" Travelling Car.

The saloon car in which the Princess of Wales and Prince Albert Victor traveled to Copenhagen, in order to be present at the jubilee of the king of Denmark, gave the Danish railway officials much trouble on account of its great length. As very few no doubt have seen the Princess of Wales' continental car, we may mention that its exterior is far from attractive, being plainly painted red and white, without ornaments of any kind. The interior is, however, most comfortably and elegantly furnished. It contains a dining, a drawing room, two bed rooms, with two beds in each, and accommodation for the servants at one end of the car. Nothing is wanting to add to the comfort of the royal travelers. The car travels on six bogie wheels, and is fitted with an ingenious arrangement of springs, preventing all noise and shaking. It is heated by coke stoves.—London Life.

A Fair Professor of Whist.

It seems that coaching club members ambitious of high standing at the whist table has proved a very lucrative employment for a clever girl here in New Orleans. Having been since childhood her father's favorite partner in the game, she learned to play with a dexterity that is classed as science by enthusiastic students of Whist. Since fashion has set towards whist as the approved game in cards, this young lady's services have been much sought after, and she is paid a very handsome sum for giving instruction to the several whist classes now formed. The last few months her income from this source alone has reached \$125 per month.—New Orleans Times Democrat.

Simplicity of the English Language.

The great advantage claimed by Dr. A. Melville Bell for English as the universal language is the simplicity of its grammar, which makes English immeasurably superior to every form of artificial language as well as to other national tongues. The various moods and tenses, declensions and conjugations which burden other grammars have practically no existence for us. Dr. Bell advocates further simplification, however, by removing grammatical irregularities—using "childs" instead of "children," "gooder" instead of "better," etc.—adopting a more orderly spelling, and improving the alphabet so as to give a letter for each sound.—New York Telegram.

Washington and Household Matters.

Washington looked after his household concerns: the arrangement of furniture, the hanging of pictures, and the locating of vases, bric-a-brac, china, cut glass silverware and linen, which Mrs. Washington had sent by sea from Mount Vernon—with as much precision as he ever directed his farmer or steward how to plow, plant seed, buy nails, scissors, grains, gloves, buttons, shingles, hats, dishes, soap, hoes, rakes, horses and other necessities, all of which appears in his well known hand writing among the 137 folio volumes of "Washington papers" in the state department at Washington.—Magazine of American History.

Electricity's Pranks.

Electricity cut up some queer capers with a tree down in New Orleans. A guy cable was attached to the tree from an electric light. In some unaccountable way the cable became crossed with a live wire, and on wet days electricity ran down the former. Several times it set the tree afire, and eventually started a blaze which destroyed that part of the tree above the wire. The trunk was examined, and its heart was found to have been entirely eaten out by the electricity leaving a more shell.—Frank Leslie's Newspaper.

Saved from a Boycott.

"So you are married!" exclaimed one as they met in front of the postoffice. "Yes." "And to Mr. Blank?" "Yes." "But I thought you broke your engagement with him?" "I did—almost, but he threatened to have me boycotted, and I thought it best to marry him."—Detroit Free Press.

Widowed Sovereigns.

There is quite a list of widowed sovereigns and ex-sovereigns across the water now. There is Queen Victoria and her daughter, Empress Frederick, of Germany; Queen Christina, regent of Spain; Eugenie, of France, and the mad Empress Carlotta.—New York Telegram.

Our minds are as different as our faces; we are all traveling to one destination—happiness; but few are going by the same road.—Colton.

When Baby was Sick.

We gave her Castoria.

When she was a Child.

She cried for Castoria.

When she became Miss.

She clung to Castoria.

When she had Children.

She gave them Castoria.

THE STEAM WAGONS.

The Two 29-ton Wagons at Verdi to be in Operation Next Monday.

J. P. Foulks informed a JOURNAL reporter yesterday that he would have the two new steam wagons making regular trips between Pack & Lewis' Saw mill in Sierra Valley and the Verdi Mill at Verdi next Monday. At present only one wagon is running. These wagons bid fair to become an innovation in this section of country in handling freight and lumber. An idea of their magnitude and power can be formed by this road soon to be placed in full operation. These two wagons weigh 29 tons each and will each trip haul six wagons each, loaded with 50,000 feet of lumber. When the roads have been placed in first-class condition, forty wagons will be used between the mills. While twelve a being brought in by the steam wagons twelve will be being unloaded at Verdi and twelve loaded at the saw mill at the other end of the road, thus leaving four extra wagons, in case of accidents. A trip will be made every twelve hours, a distance of sixteen and one-half miles, up grades 1500 feet to every three miles. It is expected that these wagons will deliver 4,000,000 feet of lumber at Verdi this season. If these steam wagons prove as successful as Master of Transportation Foulks thinks they will, they will revolutionize the hauling business and thus make it possible to compete with the monopolizing railroads. These wagons are also of advantage to the county roads as they are kept in first-class condition in order that the wagons can travel over them. Mr. Foulks has already expended nearly \$4,000 on the roads over which his wagons will travel and expects to expend as much more before they are placed in proper condition for these huge machines to do the work laid out for them. There are now thirty men working on the roads.

Nevada Nitrate.

The Enterprise says: Premoters, importers, and mining black-mules are getting their flus in with regard to the sale of 300 acres of nitre bed in the Humboldt Valley to an English syndicate for \$250,000.

One party had no sooner arranged for a sale of the property than a second and again a third party, offered the same beds to the same company for £100,000 and £50,000 respectively, and if the company waits a little longer before closing the bargain it has every show of getting the valuable deposits for nothing.

Averse titles is the trouble. The property is claimed by "Old Man Bernard," A. W. Womble and P. Ward Smith (Old Butch).

Give the Baby Water.

Here is a timely bit of advice: Do not forget to give baby (no matter how young) a drink of water now and then. Some mothers never think of doing this, and all the time the poor little thing is actually suffering for the want of water. Just a few drops in a spoon will do at first. Nothing will satisfy a child until it gets it some years ago I heard a case where a child was sick. The mother sent for the doctor. He came, and after examining it carefully said: "The child is dying for want of water. Bring me some and I will save you." The mother said that it was all right. All the mother said was, "I didn't know baby needed water."—Albany Express.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? It so, and at once get a bottle of Mrs. Winslow's Soothing Syrup for Children's Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children's Teething is pronounced the best and is the prescription of one of the oldest and best made nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

"Terpsichore" Is Right.

Under "Toss Talk" in the Enterprise "Terpsichore" remarks on the "cow shed" dance hall in "Toss Talk" Park at Carson as follows:

Why don't you give old Treadway of Carson \$100? A picnic at Carson is worth a lot more all the way from \$1,000 to \$2,000, all of which is distributed broadcast and given a chance to circulate. Now, why don't the old coddler treat his own country decently? Why don't he put down a good floor in his alleged pavilion to have on, and why does he not raise the roof of the old cow shed at least 6 or 8 feet, that the mass can be heard by the dancers? Give him a shot, anywhere Carson people have an idea that they are all do for picknickers, you know.

WHAT IS SCROFULA

It is that impurity in the blood, which, accumulating in the glands of the neck, produces unsightly lumps or swellings; which causes painful running sores on the arms, legs, or feet; which develops ulcers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, cancerous growths, or the many other manifestations usually ascribed to "humors"; which, fastening upon the lungs, causes consumption and death. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

How Can IT BE CURED

By taking Hood's Sarsaparilla, which, by the remarkable cures it has accomplished, often when other medicines have failed, has proven itself to be a potent and peculiar medicine for this disease. Some of these cures are really wonderful. If you suffer from scrofula, be sure to try Hood's Sarsaparilla. "My daughter Mary was afflicted with scrofula, sore neck from the time she was 22 months old till she became six years of age. Lumps formed in her neck, and one of them after growing to the size of a pigeon's egg, became a running sore for over three years. We gave her Hood's Sarsaparilla, when the lump and all indications of scrofula entirely disappeared, and now she seems to be a healthy child."—J. S. CARLISLE, Naught, N. J.

250 Beautiful Lots For Sale!

A RARE CHANCE FOR AN INVESTMENT AND A HOME.

THE MOST LOVELY PORTION OF RENO.

Facing the Truckee—The Aristocratic Avenue—Riverside Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

RENO

Reno's geographical position is excellent. It is on the line of the Central Pacific Railroad, only 154 miles from Sacramento, and 244 miles from San Francisco. It is the terminus of the Virginia and Truckee Railroad running south, and of the Nevada and California Railroad running north. It has two Flouring Mills, Planing Mills, three Nurseries, a Soap Factory, Reduction Works, and other industries. A great Woolen Mill and a Sash, Door, Blind and Box Factory, are about to be established.

Reno has the Bank of Nevada with \$300,000 capital, and the First National Bank with \$200,000 capital. It has two fine papers in the DAILY and WEEKLY NEVADA STATE JOURNAL and the Daily and Weekly Gazette.

Reno is the natural home of the Alfalfa, and therefore the great cattle headquarters of the State. Here are fed the prime beef for the California market. Reno potatoes are the best in the world, and she also excels in Strawberries and the small fruits. Reno Wheat took the first prize at the great New Orleans Exposition.

The State Fair is always held at Reno.

Reno is the County Seat of Washoe County, the wealthiest county in Nevada.

RENO!

Has 5,000 Population and is Growing Rapidly.

The Loveliest Town

The Cleanest Town.

The Wealthiest Town!

The Healthiest Town!

RENO

Is Supported by the Richest

Farming Country of Nevada,

Northern California and South-

ern Oregon.

RENO

Has no equal in Nevada or California for salubrity of climate, wealth of soil, diversity of products and stability. Situated in the very heart of the celebrated Truckee Meadows the future of Reno is assured. Reno is the City of Homes. There is not a house to rent in Reno. New buildings are occupied as fast as erected. Reno has advantages which no other town can equal. The climate is mild and genial in Winter, and even and healthful in Summer. There are no excessively heated or severely cold terms, and while the days may be warm in Summer the nights are deliciously cool; in Winter sleigh-riding is the exception and not the rule.

Facilities for irrigating surpass any in the State and there is no failure of crops. Reno has Churches of all denominations, Bishop Whitaker's School for Girls, Mt. St. Mary's Academy, the State University, and splendid Public Schools.

The Reno Water Co. furnishes ample pure, cold water for all purposes. The Reno Electric Light Co.'s electric light system, already well established, is being augmented. The Reno Gas Co. supplies gas for all purposes. The streets of Reno are lighted by electricity.

REMARKS AND CONDITIONS:

Entries to running purses and stakes must be made to the Secretary on or before August 15, 1889.

Those who have nominated in stakes must name to the Secretary in writing which they will start the day before the race at 6 P. M.

Entries to all trotting and pacing races close Sept. 1st.

Five or more to enter, and three or more to start in all races for purses.

National Trotting Association Rules to govern trotting races. Federal Coast Blood Horse Association Rules to govern running races.

All trotting and pacing races are the best three in five, unless otherwise specified, five to enter and three to start. But the Board reserves the right to hold a less number than five to fill, by a withdrawal of a proportionate amount of the purse. Entrance fee, per cent. on purse, to accompany nomination.

National Association rules to govern trotting, but the Board reserves the right to first heat of any two classes alternately, if necessary to finish any day's racing, or to trot a special race between heats. A horse making a walk-over shall be entitled only to the entrance money paid in. When less than the required number of starters appear, they may contest for the entrance money, to be divided as follows: 66% to the first and 33% to the second.

No horse shall receive more than one premium. In all purses entries not declared out by 6 P. M. of the day preceding the race shall be required to start.

When there is more than one entry by one person, or in one interest, the particular horse they are to start must be named by 6 P. M. of the day preceding the race. No added money paid for a walk-over.

Racing colors to be named in entry.

In trotting races drivers will be required to wear caps of distinct colors which must be named in their entries.

Each day's races will commence promptly at 1 o'clock P. M.

All entries must be directed to C. H. Stoddard, Reno, Nevada.

THEODORE WINTERS, President.

C. H. STODDARD, Secretary.

22.—Governing—To make nearest time to 30, Purse \$100. Entries to close at time of race.
23.—Running—Two miles and repeat; Purse \$350.
24.—Consolation purse.

RULES OF THE TRACK.

Entrance to all trotting and running races to close with the Secretary at 9 o'clock P. M. on Tuesday, August 20, 1889.

All entries to be made in writing, to give sex, color and marks of horses. Also name and residence of owner, and in running races, name to be worn by rider, and any other particulars that will enable the audience to distinguish the horse in the race.

Write "Entries to Races," on outside of envelope and seal.

Entrance fee ten percent of purse, to accompany entries.

In all races, 5 or more to enter and 3 or more to start.

National Association rules to govern trotting, but the Board reserves the right to first heat of any two classes alternately, if necessary to finish any day's racing, or to trot a special race between heats, or change the order of races advertised for any day.

Unless otherwise ordered by the Board, no horse is qualified to be entered in any district race that has not been owned and kept in the District six (6) months prior to the day of the race, and any entry by any person of any disqualified horse shall be held liable for the entrance fee contracted, without any right to compete for a purse, and shall be held liable to penalties prescribed by the National Association and Rules of the State Agricultural Society and expulsion from the Association.

If, in the opinion of the Judges, any race cannot be completed on the closing day of the Fair, it may be continued or deferred off at the option of the Judges.

In all races noted above, five or more paid up entries required to fill and three or more horses to start, but the Board reserves the right to hold a race and start a race with a less number and deduct a proportionate amount of the purse.

When less than the required number of starters appear they may contest for the entrance money, to be divided as follows: 66% to the first and 33% to the second.

Rules of the State Agricultural Society to govern running races except where conditions named are otherwise.

The Board reserves the right to change the order of each day's races.

Any person not intending to start his horse must notify the Secretary in writing on or before 6 o'clock the evening previous to the day of the race. Horses entered in races can only be withdrawn by consent of the Judges.

For a walk-over in any race a horse shall be entitled only to his own entrance fee and one-half of the entrance received from the other entries for said purse, and a horse winning a race entitled to first money only, except when obtaining the field, then entitled to first and third money only. A horse wins but one money under any other circumstances.

The attention of all parties interested is particularly called to the rules of the National Trotting Association under the provisions of which, except as otherwise specified, all matters pertaining to the trotting races will be conducted.

Races to begin each day at 1 o'clock P. M.

J. W. THOMPSON, President.
J. D. BYRNS, Vice-President.
P. D. BAILEY, Secretary, Quincy.
R. L. DAVIS, Ass. Sec., Quincy.

FOR SALE.

THE RESIDENCE

—OF THE—

West Side of South Virginia Street,

NEXT DOOR TO COURT-HOUSE.

THIS DESIRABLE PROPERTY CONSISTS OF 3 1/2 lots 50x224 feet, beautifully laid out, containing drives, a beautiful lawn, lovely shade and evergreen trees, and a great variety of shrubbery, vine orchard and small fruits. Sixteen years of soil and generous expenditure have made this the most delightful spot in Reno. A three-story w/e right goes with the place which is also supplied with city water. Terms reasonable.
